## THE VILLA

Walking around the huge rooms of the villa, you will feel like being in a film, transported back in time. As a matter of fact, the Villa Il Turco is an **elegant sixteenth century mansion**, once owned by the noble **Rosselli Del Turco family**.

The property is surrounded by a **large private garden**, shaded by secular trees and adorned by the beautiful view of the family's vineyard. Behind the house, hidden in absolute privacy, there is a spacious terrace and a large lawn.

## CHAPEL

In the garden there is also a very old chapel, still used for religious services.

## SWIMMING POOL

The villa also has a private swimming pool (5 x10mt), shaded by oak and olive trees and providing more beautiful views of the valley.

## THE RESTAURANT

In 2000, the Castellani family decided to start the business, and over time the restaurant has become known for the specialties of its cuisine, based on Tuscan tradition with a great pursuit for the excellence and quality of its ingredients.

The restaurant is famous for both its steaks and its homemade pasta.
